MEDICATION PROCEDURE

New York State Education Law prohibits school nurses from dispensing medication to school children without specific, written authorization from parents and the family doctor.

This applies to prescription drugs *and* over the counter items.

If parents expect a medication to be dispensed to a child during the hours he/she is in school, the following requirements must be met in each specific case of treatment:

1. From the family doctor – a written request indicating frequency and dosage of a prescribed medication.
2. From the parent – a written request to administer the medication as specified by the doctor.
3. A supply of the medication in a pharmacy labeled container.
4. By the parent – direct personal delivery of the medication to the school nurse.
5. Controlled substances must be counted by the school nurse and parent when the medication is delivered to school. At this time both nurse and parent must sign for the medication.

The authorization described above does not carry over from one school year to the next. ***It must be updated with the start of each school year.***
